

Diphtheria

Dr STEPH-O-SCOPE SAYS

"If left untreated you or your family may end up in hospital. Stay safe, if you have any symptoms visit your GP or local clinic."

**Adults and Elders
need a booster
every 5-10yrs**

**Jabs at 2, 4, 6, 18 months
and 4 years help protect
our jarjums**

**Grey-white coating
on your throat
and tonsils**

Swollen neck

Sore throat

Skin sores that don't heal
